Education B.S. in Chemical Engineering University of California, Riverside (UCR) Expected June 2027

Relevant Coursework: Engineering Modeling & Analysis, Process Control, Chemical Engineering Laboratory, Fluid Dynamics, 2026 spring research with CECERT PI Sarah Petters.

Associate of Science: Chemistry College of the Desert, Palm Desert, CA May 2020

Certifications Certified Pharmacy Technician (CPhT) # TCH 48772

Technical Skills Software & Programming: Microsoft Office (Excel, Word, PowerPoint), MATLAB, C++

Other Skills: Drug inventory control, Time management, Workflow Optimization, Quality assurance and control, Proficient in Excel

Experience Server / Catering Foundation 10, Palm Springs, CA June 2025 – Present

- Help operate and run estate and large-scale events.
- Oversee catering preparation at home location for off-site events.
- Maintain service of food truck for offsite events.
- Perform deliveries of products for outlets within the company.
- Identify and improve inefficient workflow situations for team efficiency.

Pharmacy Technician CVS Pharmacy, Indio, CA 2015 – 2025

- Supported pharmacist in preparing COVID-19 prescriptions, tests, and vaccines daily.
- Verified insurance benefits, examined formularies, and coordinated exceptions with insurance companies.
- Transmitted daily bulk orders to maintain inventory levels and performed drug inventory control.
- Refilled medications, assisted with over-the-counter product recommendations, and prepared prescription transfers.
- Flagged potential drug interactions and allergies for patients across all health conditions and age ranges.
- Handled high-volume prescriptions while providing excellent customer service and demonstrating strong communication and leadership skills.

Research / Laboratory Experience: 2026 Spring quarter research with CECERT; PI Sarah Petters.

2026 Summer research internship awarded best research presentation with MSRIP; PI Sarah Petters

Chemistry Laboratory Courses, UCR September 2023 – June 2026

- Conducted experiments using UV-Vis, IR, TLC, GC, and analyzed spectrum data.
- Composed technical reports including procedures, data analysis, results, and conclusions.
- Complied with laboratory safety protocols and SOPs for hazardous materials.
- Gained hands-on lab experience through General Chemistry, Organic Chemistry, and related courses.

Projects 2026 Spring quarter research with CECERT; PI Sarah Petters.

Leadership Experience

- Demonstrated strong leadership and time management in fast-paced team environments, optimizing workflows and coordinating tasks effectively.
- Demonstrated strong leadership as head of safety and procedures for summer internship team
